

Hello Team / Friends,

This is not a traditional job offer. It is an exclusive invitation to build a disruptive, high-potential startup from Day Zero. The strategic foundation for **Sudara** has been fully architected, and the initial product development and live testing phases are successfully completed. The product has proven its immense market worth and is now primed for rapid scale.

"We are looking for an entrepreneurial business mind, not an employee. Join as a partner to scale a validated ecosystem into a sustainable enterprise."

THE MARKET PROBLEM & OUR VISION

The hospitality and local food service industry operates on highly fragmented, inefficient, and high-intermediary cost models. Concurrently, hyper-local consumer ecosystems face daily friction due to unpredictable quality, lack of structured dining convenience, and rigid transaction structures. Sudara bridges this gap by creating a highly optimized, dual-sided digital ecosystem that stabilizes revenue for merchants while offering absolute operational convenience for consumers.

STRATEGIC ARCHITECTURE

B2B: Merchant Empowerment

Equipping local hotel and food establishment operators with data-driven demand forecasting, seamless inventory management, and a direct digital order stream to significantly boost profitability.

B2C: Consumer Convenience

Providing users with a unified platform to effortlessly manage subscription-based dining, micro-transactions, and local logistical coordination with absolute predictability and cost-effectiveness.

TARGET PROFILE: CO-FOUNDER & CMO (CHIEF MARKETING OFFICER)

Core Responsibilities & Strategic Alignment

With technical execution and product testing robustly established, we are seeking a dedicated business-focused partner to lead our Go-To-Market (GTM) strategy, brand development, and user acquisition. You will actively influence product roadmaps and drive market positioning.

- **Equity & Alignment:** High-growth operational environment with dedicated co-founder equity allocation matching your strategic contribution.
- **Growth Leadership:** Spearheading regional expansion across key target hubs, building strategic merchant relations, and driving marketing operations.

ONBOARDING & SELECTION PROCESS

To ensure transparent and high-quality alignment, we follow a structured evaluation timeline:

NEXT STEPS

The comprehensive product brief, architectural roadmap, and market analysis frameworks are fully prepared. If you possess an ownership mindset, a sharp business acumen, and the drive to build a venture from scratch, let's connect for a discussion this week to detail equity structures and execution strategies.
